

	COMMUNICATED TO SUPPLIERS	Cod.: R-P12.07
		Rev.: 02
		Fecha: 15/01/2025
		Página: 1 de 1

Dear supplier:

As you are aware, LEV2050 is ISO 9001 certified. In this sense, our Integrated Quality Management System establishes the need to register and comply with the process of selection, evaluation and re-evaluation of suppliers.

By means of this communication, we inform you about the requirements that must be met for the supply of products or services, as well as the procedures related to their approval and monitoring.

REQUIREMENTS FOR THE PROVISION OF COMPLIANT PRODUCTS AND SERVICES

We communicate to you the criteria on the basis of which we will assess the conformity of your products or services:

1. Conformity of materials and products.
2. In the case of subcontractors, compliance with LEV2050 requirements for the services provided.

In case of non-compliance with the required specifications, we inform you that, in the case of the product, it will be returned and, in the case of the service, the activity will be rejected.

INFORMATION ON SUPPLIER EVALUATION AND MONITORING

The approval of our suppliers is based on the initial and continuous evaluation of the products or services supplied. In this sense, the evaluation considers aspects such as the capacity to supply products, speed, compliance with delivery deadlines, advice and information provided, compliance with specifications, product quality, etc.

In relation to the incidents detected during the year and once the year has ended, suppliers will be classified on an annual basis.

If the supply complies with the established requirements, the supplier will be included in the list of approved suppliers.

In the event that incidents are detected and the supplier is not approved, LEV2050 will inform them of their performance and the non-conformities will be communicated for resolution. After analysing them, it will be decided if the supplier continues to be approved or if, on the contrary, it is considered ineligible.

Finally, from LEV2050 we value positively the certification of your organisation based on Quality, Environment and Food Safety standards.

We thank you for your collaboration and hope to continue counting on your valuable participation.

Aizoáin, 15th January 2025
